EDUCATION

IILM University, Greater Noida

Bachelor of Technology in Computer Science Engineering — CGPA: 9.03/10 (Final Year)

August 2023 – May 2027

Greater Noida, India

Saint Angels Public School, Baghpat

Senior Secondary (Class XII), CBSE — 90%

April 2020 – March 2022

Baghpat, India

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, TypeScript, SQL

Web Development: HTML, CSS, Bootstrap, Tailwind CSS, React, Node.js, Express.js, REST APIs

Databases: MySQL, MongoDB

Data & ML: Pandas, NumPy, Matplotlib, Seaborn, Jupyter, Exploratory Data Analysis (EDA)

Tools & Platforms: Git, GitHub, Docker, Postman, VS Code, Eclipse, Figma, Google Colab, Linux, AWS (Academy)

CS Fundamentals: Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, Operating Systems

EXPERIENCE

Data Engineering Virtual Intern

EduSkills Foundation (AICTE)

April 2026 – June 2026

Remote

- Completed a structured Data Engineering program covering ETL processes, data pipelines, cloud computing fundamentals, and data-management techniques on AWS Academy.
- Applied modern data-engineering workflows through hands-on labs, working with structured datasets and cloud data services.

Data Science Intern

YBI Foundation Pvt. Ltd.

May 2025 – July 2025

Remote

- Analyzed real-world datasets end-to-end using Python (Pandas, NumPy) — data cleaning, preprocessing, and exploratory data analysis (EDA).
- Built and evaluated machine learning models for prediction tasks and communicated findings through clear data visualizations.

PROJECTS

GhumiGumi — AI Travel Blog Platform | React, TypeScript, Node.js, MongoDB, Redis

April 2026

- Built a full-stack travel blog platform with JWT and Google OAuth authentication, full CRUD operations, and an admin dashboard.
- Integrated the Groq API (LLaMA 3) to deliver AI-powered Trip Planner, Destination Finder, and Blog Writer features, with Redis session caching to reduce response latency.

Personal Finance Dashboard | Python, Pandas, Matplotlib

April 2025

- Developed a Python application for personal budgeting with automated expense categorization, monthly spending-trend analysis, and financial report generation.
- Designed an interactive dashboard for real-time tracking of spending patterns with clean, intuitive data visualization.

Student Performance Analysis | Python, Pandas, NumPy, Seaborn, Jupyter

April 2024

- Analyzed a student-performance dataset to identify key factors influencing academic success, handling missing and categorical values during cleaning and preprocessing.
- Performed EDA with Pandas, NumPy, Matplotlib, and Seaborn in Jupyter to visualize trends and derive actionable insights.

CERTIFICATIONS

Full Stack Web Development — Apna College

December 2025

Java Programming Fundamentals — Infosys Springboard

August 2025

Data Science with Python — Infosys Springboard

April 2025

LEADERSHIP & ACTIVITIES

- Vice President, Coding Club — IILM University** (August 2025): Organized and led the technical event “Tech Hunt” to promote problem-solving and teamwork among students.
